2. The DCI has agreed to participate in another Southeast Asia War Game to take place on 10, 15, and 17 September. The prime purpose of the Game is to look again at U.S. and ChiCom courses of action and reaction. DCI will be a member of the Blue Team, Ray Cline will be our senior man on the Red Team, and three other CIA SEA experts will also participate.

3. [] 12 August gave a short briefing to Major General Tom Stoughton, Commanding General of the U.S. Army Area Command in Germany. Stoughton was briefed on our organization [] He was cordial, receptive, and seems to have a good impression of us. He asked particularly to be remembered to you.

4. You asked, after reading a recent cable from [] concerning his discussion with [] "What are we doing with and about this report?" I checked with EE Division who says that this report, like all other hot flashes from Jack, was handcarried by Tom K. and our [] specialist to the Department, and made available to Ball, Talbot, and company.

6. You need have no further concern that the letter from Congressman Holifield is related to the polygraph hearings. The Holifield letter was largely a think piece in which he made the point to the DCI that the creation of the MLF may cause very severe Soviet reactions, and he wanted to know what the DCI thought about this. DCI will confer with Holifield after his return.
